DID YOU KNOW...

■ That the University of Florida is one of just nine schools among the combined colleges in the Southeastern Conference, Atlantic Coast Conference, Southwest Conference and southern independents that has been admitted to the Association of American Universities, the most prestigious organization in higher education. The only other schools from those four groups mentioned above that have gained admittance to the AAU are Duke, North Carolina, Maryland and Virginia of the ACC, Vanderbilt of the SEC, Texas and Rice of the Southwest Conference and Tulane among southern independents. Nationwide, only 58 of over 1,200 colleges and universities in the country are members of the prestigious Association of American Universities.

■ That of the 58 member schools in the Association of American Universities, only the University of Florida, the University of Texas and the University of Southern California had its football team ranked in the Top Twenty in the 1990 final AP Poll and had its overall combined athletic program ranked among the ten best in the country in 1990 national rankings by USA Today.

■ That of the 58 schools that are members of the prestigious Association of American Universities, only one school, the University of Florida, saw its football team ranked among the nation's Top Twenty in the final 1990 AP Poll and its baseball team advance to the 1991 College World Series.

■ That the combined athletic program at the University of Florida ranked among the nation's ten best each year from the 1983-84 season to the 1989-90 athletic year. When USA Today compiles its rankings for the 1990-91 season this summer, it is expected that the University of Florida will rank among the country's ten best combined men's and women's athletic programs for the eighth consecutive year.

■ That during the recently completed 1990-91 academic year, ten University of Florida athletic teams placed in the top six in the nation in their respective sport and 15 teams placed in the top 15. Overall, 15 of 19 Florida squads placed in the final top 20 in their respective national championship event/poll this past season.

■ That the University of Florida has had at least one player selected in the first round of the NFL Draft in each of the last nine years (1983-91), the only school in the nation to achieve that distinction. In fact, Florida is the only school to ever have a player selected in the first round of the draft for nine consecutive years since the NFL Draft began in 1936.

■ That the University of Florida has had 13 players selected in the first round of the NFL Draft the last nine years (1983-91), the top total in the nation over that nine-year time span.

■ That since 1980, Florida athletic teams have combined to rank in the final top ten in their respective sport a total of 79 times. Thirty-seven (37) times since 1980 Gator and Lady Catathletic teams have finished among the top three teams in the nation during a respective season.

■ That during the three Olympics held during the decade of the 1980s (1980, 84, 88), the University of Florida had 57 representatives on Olympic squads. Those representatives earned 26 Olympic medals, including 15 gold.

■ That since 1980, Florida student-athletes have garnered an eye-catching 1,121 combined All-America honors. Over that same time span, Florida athletes have won 132 individual national titles.

■ That since 1980, the Florida athletic program has won a total of 52 combined SEC titles, the most league crowns for a conference member over that time span. It has won nine national team titles since 1980.

■ That since 1980, Florida student-athletes have earned SEC Academic Honor Roll status more times (176) than any conference school.

PRESS BOX

Entrance to Press Box - Enter the Press Box via the Press Elevator that is located midway at the base of the West Stands (press box side of the field). This elevator will go to all levels of the press operation. "Press Will Call" will be located in the press elevator lobby at street level. You will pick up late request credentials and parking passes here as well as photo sideline credentials.

Press Box Levels - There are seven levels in the Florida Field Press Box: 1) President's Deck which houses a lounge for the University President and his guests; 2) Bull Gator Club; 3) Working Press Deck - print media and media seating; 4) Coaches Scouting Booths, Television Networks, Home and Visiting Radio Networks; 5) Photo and Video Deck including coaching films for both teams; 6) Luxury Box Level; 7) Luxury Box Level.

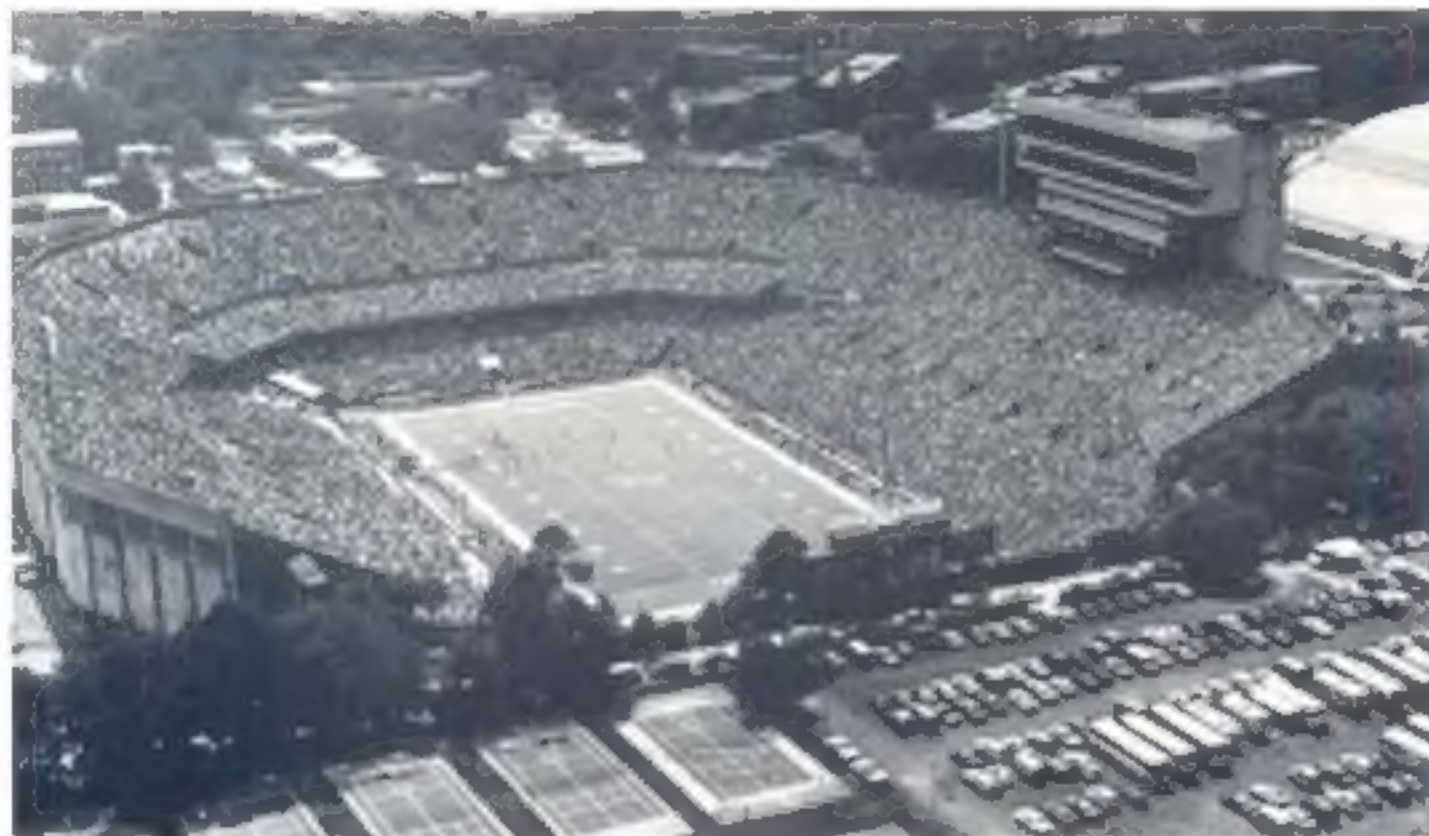

Working Press Deck (Level 3) - This level is reserved for media seating and statistical operations. **Fax Service** is available. We suggest that you let us know in advance what your needs in this area might be on game day. Several pay phones are available at the back of the press box which are used by dozens of media reps. If you have concerns about meeting tight deadlines, we strongly encourage you to order your own phone (see section on telephones).

Television Networks, Radio Networks, Coaches Booth, Dining Area (Level 4) - This level is reserved for television networks that are doing the game on a live or delayed basis. This level also houses the radio network for Florida and its respective opponent on game day. Each of the coaching staffs has one booth designated for its use. This level also contains the serving and eating areas for media representatives only.

Photo Deck (Level 5) - This deck offers a spacious area for all video cameras that are covering the game. This area also will be used for filming by each of the coaching staffs. Security and Game Operation booths are also located on this level.

SIDELINES

The University of Florida follows NCAA and SEC rules regarding media representatives on the sidelines. Photographers are not permitted to shoot between the 25 yard lines and they must wear a photo patch at all times. No credentials will be issued to free-lance photographers, cut-line writers, equipment carriers, or radio station representatives except for the two originating networks. A "photo only" zone has been established on the Florida Field sidelines. Only people wearing a game photo patch with photo or video equipment will be permitted in this area. All other media representatives on the field must stand behind the "photo only" zone. This will ensure that photographers/videographers have the appropriate area to do their work.

Twice in the last six years the University of Florida has received a Press Box Merit Award from the Football Writers Association of America for superior press box facilities and gameday operations.

CREDENTIALS

Press Box — All members of the media covering the game in a working capacity must seek appropriate credentials in **advance** from Norm Carlson. We would appreciate receiving these requests as early as possible. Requests for **working space** in the press box and photo credentials for the sidelines will be honored from Sports Editors of DAILY Newspapers and Sports Director of Television Stations **ONLY**. Due to the heavy demand for working space, credentials for radio stations are limited to immediate Gainesville area stations and the two broadcast network crews doing the game. Any radio station seeking in-game and post-game reports can receive them by calling the SID Office in advance to make proper arrangements with our staff. Request for working credentials must be made in **advance in writing** to Norm Carlson. Spouses, dates, non-workers, and anyone 16 years of age or younger, are not permitted in the press box. Violators will not be tolerated. Media agencies that violate this policy will not be issued credentials for future games.

Sideline Credentials — Media representatives with a gameday sideline credential form must report to the Press Elevator Lobby prior to the game. When you present the appropriate letter and identification, a sideline photo patch will be issued at that time. Your game credential or letter will not gain admittance to the photo zone on the sidelines. Media reps wearing a photo patch will be the only people that will be permitted to enter the "Photo-Only" zone.

PRESS WILL CALL

Late requested game credentials and parking passes that cannot be mailed can be picked up at "Press Will Call" in the Press Box Elevator lobby area. Game stand tickets that have been ordered by the media must also be picked up at the Press Will Call Windows.

PARKING

You should request your parking credential at the same time you request your game-day working credentials. Parking credentials are limited. If time permits,

both of these credentials will be mailed. If time doesn't permit the parking credential to be mailed, you will have to pick it up at the Press Box elevator lobby area before gaining admittance to the press parking area. Parking will be in an area close to Florida Field.

HOTEL ROOMS

The SID office has a limited number of rooms reserved in the area. We would be glad to assist you with a hotel room if you get in touch with us at least a week before the game. Please contact Harriette Peebles and she will do everything possible to assist you.

FOOD AND BEVERAGES

A hot pre-game meal will be served on level 4 of the press box beginning approximately 1½ hours before kickoff. Snacks and beverages are available on level 3 throughout the game as well as after the game while you complete your work in the press box. Approximately two hours after the game additional food and beverages will be available on level 2 of the press box (Bull Gator level), at the post-game media social.

PRESS BOX AND POST-GAME INFORMATION SERVICES

Play-by-play, complete halftime and final statistics, coaches quote sheet, defensive stats, and post-game notes are all regular services on game day. Upon your arrival, you will receive an extensive press folder with game program, flip-card, updated statistics, biographical sketches, and game-day notes. An internal PA system will provide updated information and notes throughout the game.

POST-GAME INTERVIEWS

Florida's SID staff will escort media representatives to appropriate locker-room areas with 3-5 minutes remaining the game. Florida coach and player interviews will be conducted in the south endzone locker/conference area. Coach Spurrier will conduct a press conference in the media conference room 10 minutes after the contest. His conference can also be heard via an amplified phone hookup in the press box should you be facing tight deadlines. Florida's locker area for player interviews will open 25 minutes after the game. The locker area is open to all reporters. You

can arrange post-game player interviews by filling in the appropriate request sheet in your press folder and returning it to a member of the Florida SID staff no later than the ten minute mark of the fourth quarter.

Procedures for coach and player interviews for Florida's opponent will be coordinated by the opponent SID staff. Opponent locker areas are located outside the southeast tunnel area of Florida Field.

FAX SERVICE

Fax service is available in the press box to send information back to your agency at the conclusion of the game. There is a small fee for this service depending on the amount of information you want sent. Hal Deck is the fax service representative that will coordinate this service in the press box on game day. Please contact him on gameday to discuss your specific needs.

TELEPHONE INFORMATION

We strongly encourage you to make sure that your phone needs are met before gameday. Telephone orders for lines should be placed directly with Southern Bell (Cindy Fisher,

904-350-4656). Remember, you must place separate orders for your phone line and for the appropriate equipment or you must bring the appropriate equipment with you. The SID office will not be able to help you with a phone line and/or equipment on the day of the game. You should take care of these matters as soon as possible. A bank of wall phones are available to the media on level three of the press box (print media and statistical operations). The SID office does have a few other phones that it uses for fax services and radio reports. Once again, if you envision tight deadline problems we strongly encourage you to order your own line as the SID phones, fax phones and the wall phones available to the media are in almost constant use for two hours after the game.

Florida-Georgia Game — Telephones are extremely limited for this game at the Gator Bowl in Jacksonville. There is only one wall phone in the entire press box. Two phones are available for fax and radio reports. You are strongly encouraged to make sure that your individual phone needs are met before you arrive at the game. Please call Southern Bell (Cindy Fisher, 904-350-4656) as soon as possible to order your line. Remember, you also must bring your own phone or order a phone. If you don't take care of your phone needs in advance, you will experience problems on gameday in getting your story sent.

COACH SPURRIER INTERVIEWS (GAMEWEEK)

The best time to interview Coach Spurrier on the telephone is 11:00-11:30 on Monday, Wednesday and Thursday. He will normally return calls during these time frames. Please coordinate all requests for phone and personal interviews with Coach Spurrier with Norm Carlson in the SID office. This is important during the season with Coach Spurrier serving as head coach, offensive coordinator and QB coach, his time schedule must be coordinated. On every Sunday prior to a game the upcoming Saturday, Coach Spurrier will conduct a teleconference call at 2:00 p.m. ET with media representatives. Every Tues-

day, Coach Spurrier will conduct a press conference at Florida Field. He will do radio and TV interviews from noon until 12:45 at Florida Field and then conduct a joint press conference for all media representatives in the Von Hall Dining Room from 1:00-1:30. He will also take part in a SEC teleconference each Wednesday morning at a time to be announced. Coach Spurrier will also be available to the media each day after practice.

PLAYER INTERVIEWS (GAMEWEEK)

ALL player interviews must be coordinated with the Sports Information Office. We strongly urge you to conduct your personal interviews on Monday after practice and Tuesday (lunchtime and/or after practice). Interviews will take place on the practice field at the conclusion of practice. If it can possibly be done, short interviews with television stations can be conducted prior to the start of practice. Monday and Tuesday evenings are also reserved for phone interviews with out-of-town media. Please call at least one day in advance for phone interviews. A note will then be left on the player's locker and dorm room asking him to return your call. All player interviews will conclude on Tuesday after practice. The Florida SID office will also conduct a teleconference with 2-3 players each Wednesday at a time to be announced. The Von Hall Dormitory, team locker-rooms and training areas are considered private team areas. These areas are off limits to media representatives unless accompanied by SID office personnel.

PRACTICE

Fall practices are open to media, closed to the public. Coach Spurrier will meet with all interested media at the conclusion of each practice. Players are available for interviews after practice on Monday and Tuesday. No advance notice is needed. TV 8-roll and still photos are permitted on the practice field Monday and Tuesday from the start of specialty period until the end of the first work period after calisthenics. Photographers will be allowed to film from anywhere outside the perimeters of the two practice fields. At that time,

GATOR SPORTSLINE (BROADCAST QUALITY)

The Florida SID office will tape coach and player interviews for your use throughout the week. The general format of the Sportline will be: Monday — Florida defensive coach interview about the opponent offense; Tuesday — Coach Spurrier's comments from his weekly press luncheon; Wednesday — Offensive coach interview about the opponent defense; Thursday — Player interviews; Friday — Player interviews; Saturday — Coach Spurrier's post-game comments. The Sportline number will be published in the weekly release material you will receive or by calling the SID office.

VIDEO SERVICES

On a weekly basis, Florida will send satellite interviews of Coach Spurrier and several players to television stations that desire the service. Specifics (day, time, and appropriate satellite information), will be announced in August. If interested, please call Steve Babik at the UF Athletic Dept. (904-375-4683, ext. 6600). The SEC office will also be sending a satellite feed of player and coach interviews from all ten conference schools. Specifics will be announced later.

The University of Florida has a Ku-band satellite uplink truck that is used to feed coach and player interviews on a weekly basis for television stations that desire this service. Contact Network Coordinator Steve Babik in the Florida Athletic Department, (904) 375-4683, ext. 6600, regarding this service. Check your weekly sports information release for exact time of feed and the satellite coordinates.

The Ku-band satellite uplink truck is also available at standard commercial rates to assist the media in covering sports news events at the University. For more information about these special services, contact Frank Aheon or Charlie Tuggle of Information Services at (904) 392-9092.

Upbeat That is the one word that surfaces the most when describing the state of Florida football. A fine 9-2 season in 1990 that saw Florida post the best record in the SEC with a 6-1 slate, offensive and defensive units that both ranked in the nation's top ten, and a final national regular season ranking of 11th combined to rejuvenate the spirit and hopes of the Gator faithful. It's not just the successful 1990 season, however, that has fans and close observers feeling upbeat about the Gator football program. Once again Florida football is fun and that more than anything is the primary reason for the upbeat atmosphere that prevails.

Head Coach Steve Spurrier has brought a lot of smiles back to his alma mater and to the Florida faithful. A 9-2 record in his initial season at the helm in 1990 combined with his infectious positive approach and outlook to all aspects of the football program have created a very upbeat direction and attitude.

Spurrier and his staff believe that the 9-2 season in 1990 built a solid foundation for consistent future success.

Overall, 11 starters, seven on offense and four on defense, return from a squad that posted a 9-1 record after ten games in 1990, the best start in Florida history. If the leadership that the departed seniors exhibited is replaced and players step forward to fill the void at a couple of positions, especially on defense, then the 1991 contingent has a chance to be just as successful as last year's, says Spurrier.

Florida's second spring practice under Spurrier concluded with a different set

of problems for the coaching staff.

Florida's second spring practice under Spurrier concluded with a different set of circumstances, concerns and strengths than was the case a year ago. In the spring of 1990, quarterback was a puzzle yet to be put together and the offense was attempting to learn a new system. The defense was veteran, tested and talented. In the 1991 spring session the offense was pretty well set and quarterback was a strength. Determinatively the Gators lost several standouts and had many holes to fill.

One of the unique aspects of the Spurrier-developed offense is that it effectively blends all forms of moving the football and it fully integrates passers, runners and receivers. It does not just highlight one aspect of the offense. Spurrier's first Florida offensive unit demonstrated that fact clearly in 1990 as the Gators were the only team in the nation to throw for over 3,000 yards, have three receivers who caught at least 35 passes and two runners who each rushed for at least 600 yards.

Ernst Rhett (above left), a sophomore, and Willie McClendon (right), a senior, rushed for a combined 1,458 yards from the runningback slot in 1990, the top total for a duo in the SEC last fall. Rhett's 845 yards ranked fourth in the league.

Further down the line, too, Georgia, it was the only team in the league with two rushers who rank in among the top eight in the conference. It was the only squad in the league with three players who had at least 35 catches and its tight end, Kirk Kirkpatrick, led the SEC.

Seven starters return from a 1990 offensive unit that ranked as the most productive in school history and one of the best in the nation last fall. Spurrier's "Fun and Gun" offense established one SEC and 14 school records in his first year at the helm in 1990. The Gators averaged 290 yards passing per game last fall, the third best single-season mark in SEC history and a figure that ranked ninth in the nation for 1990. Florida scored 30 or more points in eight of eleven games last fall. Spurrier's offense averaged 44.4 points and 508 yards per game over the last five contests.

All-America Squad, rushed for a team-high 1,445 yards (5.7 apc) with 4 TDs. Rhee's 1,445 yards in 1990 ranked as the third best seasonal rushing total for a freshman in school history. He ranked fourth in the SEC in 1990 in rushing. Rhee powered four of the five 100 yards rushing games that Florida registered in 1990. McCleendon rushed for 613 yards, second on the team with a squad leading seven touchdowns. 1990 marked the third consecutive year that McCleendon ranked second on the squad in rushing. He enters 1991 with 1,460 career rushing yards. Both McCleendon and Rhee are a prominent parts of the Gator passing attack. McCleendon ranked fourth on the 1990 squad with 27 catches and Rhee fifth with 22. Sophomore Kedra Malone (5-8, 177) is the only other wide receiver player at runningback. Malone, one of just two freshmen not redshirted last fall, ranked third on the team in 1990 with 111 rushing yards. He had an outstanding spring and will play a prominent role this fall. Freshman Kevin Freeman (6-0, 217) was moved to inside linebacker during spring drills.

Freeman continues to be a battle for the starting job at fullback. Senior Dexter McNabb (6-0, 218) started the first nine games at fullback in 1990 but he was replaced in that role for the final two games of the season by sophomore Kevin Randolph (5-10, 209). McNabb rushed for 116 yards and had 16 receptions for the season while Randolph rushed for 42 yards with two catches in his late season appearance. This duo will be joined by Chris Gilkie (6-2, 222), an impressive looking redshirt freshman. Randolph enters the fall atop the depth chart.

RECEIVERS

This is the one aspect of the offense that has been hurt significantly by graduation. The squad's top three receivers in 1990, tight-end Kirk Kirkpatrick and wideouts Ernie Mills and Terence Barber, are gone. That trio combined for 131 catches in 1990 for 1,971 yards and 19 TDs. coached." He will be sorely missed. Junior Greg Keller (6-4, 234) and Daniel Jackson (6-2, 226) a converted fullback, and redshirt freshman George

Ki Shing (6-3, 227) are the top three players at this position heading into the fall with Keller at the head of the pack. Keller had eight catches in 1990 and was second on the depth chart at TE throughout the season. Charlie Dean (6-2, 229), the number three TE in 1990, was moved to inside linebacker during spring drills.

Dean also will be the wide receiver duo of Ernie Mills and Terence Barber. Mills had a banner 1990 season with 41 catches and an SEC-leading 10 TD receptions. Mills averaged 18.8 yards per reception in 1990 and over 19 yards per catch throughout his college career. He was a first-team All-SEC choice last fall and a third round selection in the 99 NFL Draft by Pittsburgh. Barber ranked third on the squad in receptions with 35.

Leading the list of returning players is junior Tee Everett (5-9, 171). Everett started the first three games of the 1991 season opposite of Mills and led the squad in receptions after three weeks with 11, including five catches for 123 yards and a TD in the season opener vs. Oklahoma State. In the third game of the season against Furman, however, he suffered a cracked rib and never really seemed to fully return to his early season performance level. He missed the season with 30 catches, sixth overall on the squad, for 291 yards, 14.6 avg., and three TDs. Coach Barber also commented that he will blossom into the big-play wide-out that Mills became after having a fine spring.

Six scholarship players took part in spring drills at the wide receiver position with five of those players being either freshmen or sophomores. Incoming Everett, along with sophomores Monty Duncan (6-6, 211), Harrison Houston (5-9, 167), Henry Hanson (6-2, 199) and Willie Jackson (6-0, 192). The four sophomores were joined by redshirt freshman Aubrey Hill (5-10, 167). Duncan had five receptions in 1990 and Houston four. Duncan enters the fall as the projected starter at wide receiver along with Everett. Houston was one of just two true freshmen on the 1990 squad who was not redshirted. He was named the squad's most improved wide receiver this spring. Senior Alvinzo Sullivan, who was academically ineligible this spring, is expected back this fall. He had seven catches for 68 yards in 1990.

Shane Matthews threw for 2,952 yards and 21 TDs in 1990 as a sophomore. The second best performance in those categories in SEC history. His 68.6% completion percentage was the best in SEC history for a quarterback who completed at least 200 passes.

THE DEFENSE

[illegible]

66

Florida has built a proud tradition of defensive excellence. The Gators have ranked in the nation's top five in total defense in each of the past three years. Over the last eleven years no team in the highly-competitive Southeastern Conference has put together a consistently more effective defense. Five times over the last eleven years Florida had led the SEC in total defense. No other team in the SEC has led the league in total defense more than twice during that same eleven-year period. If Florida is to maintain its high national defensive profile it must replace six starters, five of whom started for two or more years, from a 1990 unit that ranked fifth in the nation in total defense, yielding an average of just 257.6 yards per game.

Tim Paulk, a player who has demonstrated a talent for making big plays in the end zone, is expected to work with the top wide receivers in the country this fall.

moved to new starting positions at defensive end and cornerback, respectively. The 199 defense has just five returning scholarship seniors on its roster.

Seniorism ends Huey Richardson, a three-year starter and first team All-American selection in 1990, and Mark

Murray on the line. Inside linebacker Jerry Clifton, a two-year starter and cornerback, and Mike Smith, a two-year starter who gained first-team honors in 1990, must be

replaced by a contingent who has not yet seen the field. A three-year starter who gained first team All-SEC and second-team All-American recognition in each of the past two years and Jimmy Spencer must be replaced in the secondary. Combined, the six departing players started 138 games in all.

As has been the case in recent years, Florida will have some defensive players that are expected to rank among the nation's finest. Senior defensive tackle Brad Culpepper, entering his third year as a starter inside linebacker Tim Paulk, a first-team All-SEC choice in 1990, and free-safety Walt White, a first-team All-American choice as a sophomore in 1990, are expected to be the headliners on a Gator unit that will attempt to keep Florida among the nation's elite defensive teams.

DEFENSIVE LINE

Florida returns seniors Brad Culpepper and Mike Brandon, who both

Richardson and Mark Murray. The sophomore in 1990 played a big role in a unit defensive end that ranked fifth in the nation in rushing defense, yielding an average of just 85.5 yards per game, the lowest in school history.

Richardson, a three-year starter and second selection in the 1991 All-American, was one of the most dominant defensive players in college history. The 1990 first-team All-American completed his stellar career with 26.5 quarterback sacks, the second best total in school history and a 5.5 career total for tacklers for 10 yards, third best in Gator history. Richardson, a two-time first-team All-SEC choice, combined with Murray, a second-team All-SEC choice in 1990, to give Florida an outstanding defen-

Senior Mike Brandon starts at defensive end this fall after starting at tackle in 1990.

Culpepper (6-2, 263), a second-team All-SEC choice in 1990 and a three-time SEC Academic Honor Roll recipient who was elected Student Body Vice President last spring, enters his third year as a starter on the Florida defensive line. He is expected to be a top power season honors candidate in 1991. Culpepper led the squad in overall total tackles for losses with 14.5 in 1990, and also led the team high in LB sacks with 5.5.

Senior Mike Brandon (6-4, 274) was moved from tackle to defensive end this spring. Last year in eight starts at defensive tackle he registered 14 total tackles, second best among the defensive tackles and fourth overall on the defensive line. Sophomore Williams (6-5, 279) a starter in three games last year, and senior Luke McGray (6-2, 271) are the top candidates to start with Culpepper at tackle. McGray was a starter at defensive tackle in 1989, but did not participate in 1990.

Smith, a top tackle backup the last two years, is expected to start at defensive end during spring drills.

Several players are expected to replace the Richardson-Murray dual defensive end as well as for prominent backup roles at those posts. Senior Mike Brandon, a starter in eight games at tackle last year, joins junior Darren Murray (6-4, 276), the top defensive end reserve in 1990, James Thomas,

Mike Kerr and Luke Smith along with redshirt freshman David Swain in that

an injury-marred 1990 season at defensive end and expected a much increased role in Kerr's 1991 season primarily played.

Junior Smith (6-2, 264) spent two years at quarterback and line the last year of his career in 1989. Swain (6-3, 264) was redshirted in 1989 for the 1990 season. Murray (6-2, 277) who was a second-team All-SEC choice in 1989, is also expected to

participate in the end with McGray and Kerr the top backups.

INSIDE LINEBACKER

This is an area where depth is a concern. Florida entered spring practice with just four returning scholarship players at these two positions. The former depth at this important position area, sophomore Charles Dear, was moved from right-end and freshman Kevin Freeman from runningback.

and Tim Paulk and Mike Smith are expected to rank with the nation's top inside linebackers in 1991.

Sophomore Ed Robinson (6-4, 221) is the other starter at inside linebacker. Richardson, who was an All-SEC Academic honor in 1990, had 47 tackles and seven sacks on the team. He

was named the defensive squad's MVP this spring at the conclusion of drills.

Vying for top backup roles will be senior walk-on Gregg Diamond (6-3 210) and junior Carlton Ayiles (6-2 233). Diamond was awarded a scholarship to his play this spring. Ayiles, who was moved from defensive end to inside linebacker in the spring of 1990, registered 32 total tackles last fall. The only other returning scholarship player at ILB entering spring drills was sophomore Matt Mulhain (6-0 212), who saw just 14 total plays of action in 1990. As mentioned above, this is a position that was bolstered by player moves from other positions this spring. Sophomore Charlie Dean (6-9), the number three tight-end last fall, and redshirt freshman runningback Kevin Freeman (6-0 177) were moved to inside linebacker during spring drills. This could be a position where an incoming freshman might be able to contribute.

Florida loses Jerry Odum at this important position via graduation. Odum led the 1990 defense in total tackles with 85 and started 22 of the 33 games Florida played over the last two seasons. He was an important cog on Gator defense even as he ranked among the nation's top five in 1989.

OUTSIDE LINEBACKER AND CATERBACK

Florida's 4-4-3 base defensive scheme calls for two players who function as a combination linebacker and strong-safety. The outside linebacker primarily plays on the weakside while the Caterback handles the strongside responsibilities. These positions are a concern heading into fall due to a lack of proven experience and depth. That concern was further heightened this spring when Alfred Smith (6-2 223), a highly regarded junior College All-American transfer who was expected to gain a starting berth at either Caterback or outside linebacker, had to give up football due to a congenital narrowing of the spinal canal in his neck. His injury further depleted depth at this position area.

At Caterback, Florida loses a great deal of experience. Godfrey Ayiles, a first-team A-SEC choice who was perfectly suited for the demands of this

position with his combination of size, speed and strength, has departed along with his top backup, James Speer. This duo saw over 900 plays of combined action in 1990. Ayiles ranked third on the squad in total tackles with 69. He was a third-round selection by the Dallas Cowboys in the April NFL Draft while Speer was a free agent signed with Seattle.

To fill the void, senior Ephesus Barley (6-3 221), a starter at outside linebacker for all 11 games in 1990, was moved to Caterback this spring. He registered 65 total tackles, the fourth top total on Florida's nationally ranked defense in 1990. Barley had started eight games at strong-safety as a sophomore in 1989. With his experience, he could become a post-season future candidate.

The only returnee at Caterback from last year is sophomore Cornell Turner (5-11 212) who saw just 29 plays of action in 1990. Junior Marquis Oliver (5-9 211), a backup at OLB in 1990, emerges this spring as Barley's top backup at Caterback. He was moved from outside linebacker to Caterback this spring.

With Barley's move from outside linebacker to Caterback a void was

created at OLB. Junior Monty Crow, the top backup at free-safety each of the past two seasons, was moved to that post this spring. Crow (6-3 211) and all defensive backs in 1990 in total tackles with 36. Junior Myrick Anderson (5-11 214) enters the fall as the top backup at outside linebacker.

With a lack of depth at the outside linebacker and Caterback positions an incoming freshman might have to see playing time.

CORNERBACK

Next to finding replacements and improving depth at Caterback and outside linebacker, this is a position on the defense that will continue to command a good deal of attention this fall. Two starters, Richard Fain and Jimmy Spencer, have departed Fain, who started 11 games over the course of the last three years, was a two-time first-team A-SEC and a two-time second-team All-America selection. He saw over

100 plays over the last three years. Spencer started eight games in 1990 at the corner spot opposite Fain and saw over 500 plays of duty last year. Fain was a sixth-round choice by Cincinnati, and Spencer an eighth-round selection by Washington in April's NFL Draft.

Only four scholarship players, two of which are redshirt freshmen, made up the returning contingent at cornerback this spring. They were joined in spring drills by Jimmy Owens, a junior college transfer. This young and inexperienced unit was composed of three juniors and two freshmen during the spring.

Junior Des Speer (6-0 192) was the only one of five scholarship players at this position this spring who had seen any meaningful time at cornerback at the major college level. Last year as a sophomore he started three games and

COACH SPURRIER'S COMMENTS ON 1991

DEFENSIVE TEAM

ENDS

We lost a couple of fine ones last year in Huey Richardson and Mark Murray but with Harvey Thomas, Michael Ker, Warren McClell and we moved Mike Brandon out there. Those guys can be outstanding players. Brandon is the most experienced defensive lineman there and Thomas maybe has a chance to lead the team in sacks. We hope he gains about 10 pounds over the summer and plays at about 245. Tim Smith, a former punter, is going to work hard. We think he can contribute.

TACKLES

Butt, Smith, returning all-time top player (second team) and he should have an outstanding senior year and be a leader. He is one of our captains. Tony McCoy is back now and William Gaines had an outstanding spring. Phil Upjohnson is a fine defensive tackle who played well in the spring. This is maybe the strongest part of our defense right now and if your asked coaches most of them would want to be the strongest in this area."

LINEBACKERS

Tim Paulk, who was All-SEC last year and should be a pre-season All-America candidate this year, was named one of our captains. I think he is going to have a fine season. Inside linebacker is a position where we don't have much depth and an incoming freshman like Kevin Carter may have a real chance to play

Sophomore Ed Robinson had a fine spring and will be the other starter with Paulk. Carlton Miles has a chance to help and it's a good thing we moved freshman Kevin Freeman here from running back.

"We plan on continuing the tradition of outstanding defenses at the University of Florida. I think the defense will be just as solid as last year and some of our veteran players think we can be better. We were fifth in the nation and second in the SEC last year and our goal this year is to be better than that."

OUTSIDE LINEBACKERS/GATORBACKS

Fee Bartley is the starting Gatorback and he's a good player. Martiquito Oliver is behind him. On the other side we have Monty Grow, a converted safetyman, with Myrick Anderson also there. Incoming freshman Ben Hanks could come in and help quickly here. We're pretty solid on the first team but don't have depth.

CORNERBACKS

We lost two good ones in Richard Fain and Jimmy Spencer, who were both

drafted by the NFL. Del Spoor played well in the spring and he is the starter on one side. The other side is up for grabs between Pete Archie, Sam Sewell, Brian Montgomery and Jimmy Owens. Incoming freshman Kevin Carter is hoping a junior college transfer like Lawrence Hatch can come in and compete for a starting position.

FREE SAFETY

Will White was a first team All-American last season and we really think he can play better this year. Michael Gilmore moves in this spring as the second team player and Kris Loy, a walk-on, is also in the picture there.

DEFENSIVE SUMMATION

We plan on continuing the tradition of outstanding defenses at the University of Florida. I think the defense will be just as solid as last year and some of our veteran players think we can be better. We were fifth in the nation and second in the SEC last season and our goal this year is to be better than that.

OFFENSIVE TEAM

WIDE RECEIVERS

We lost our two top wide receivers — Ernie Mills, who led the SEC in touch-down catches with 10, and Terrence Barber — but we feel like Tre Everett can come in and be an all-league and possibly All-America. On the other side sophomore Monty Duncan is a strong, tough receiver who can run well. Depth is good with Harrison Houston and Henry Easton at flanker and Aubrey Hill and Willie Jackson at split end, Mark Jackson and Charles West, the fastest high school player in Florida last year, are incoming freshmen who maybe can help this year.

TIGHT ENDS

Kirk Kirkpatrick led the league in receptions with 55 last year and he graduated. Still, we should be okay with Greg Keller and Terrell Jackson battling for the top position, backed up by freshman George Kushing. Hopefully, they will come on and play well this season.

His accomplishments at the collegiate and professional levels provide solid proof that he is among the leading coaches in football at any level in the 1990's. His return to Florida brought back fond memories for Gators everywhere. He won the 1966 Heisman Trophy at Florida and is still regarded as the most famous athlete in school history. He guided the Gators to two major bowls in three seasons, eight come-from-behind-wins in the final quarter and a glorious period still remembered with fondness by Florida people

• *Chlorophyll a* (Chl a) is the primary photosynthetic pigment in all photosynthetic organisms. It is a green pigment that absorbs light energy in the blue and red regions of the visible spectrum. Chl a is found in the thylakoid membranes of chloroplasts in plants and in the plasma membrane of cyanobacteria and algae.

Spencer first Florida squad was the 3rd in total offense and passing yards. 1990 through the fiftieth straight was Spencer directed squads have had a league in finish of their rate of efficiency. The 1990 squad scored 20 or more points in eight of its eleven games.

TE Mark Kirkpatrick led the SEC with 35 catches, a figure that set a UF single-season mark for a tight end. WR Ernie Mills led the SEC in TD receptions with 10.

Kirkpatrick, 6'6", Georgia, 18, then set a UF record in history against those two longtime rivals. Over the last five games of the season, traditionally the strongest part of UF's schedule, the Canins averaged 44.4 points per game and 318.2 yards.

For the first time in 10 years, the most for

any Florida-ranked fifth in the nation in total defense and fifth in rushing defense. The Canins set a new school record for rushing defense, yielding an average of just 87.3 yards per game. 1994 marked the third straight year that UF ranked among the nation's top five teams in total defense.

DUKE UNIVERSITY (1987-89)

- Compiled an overall record of 20-11-1
- In two of the three years at the helm, Duke received the College Football Association (CFA) Academic Achievement Award for graduating the highest percentage of its players.

Spurrier led Duke to an 8-2 record in 1984 and an ACC title, the school's first since 1962, and an appearance in the 41st American Bowl. The school's first post-season game since the 1960 season. In 1989 Duke team became the first squad in ACC history to average less than 100 yards a game in total offense. His three Duke teams averaged 329.2 passing yards per game, including an ACC record 433.4 in 1988.

- Over the course of his three years at the helm, Spurrier's offense was the nation's top passing offense in each of his three years at the helm.
- In each of his three years at Duke the Blue Devils averaged over 300 yards

per game in passing offense. QB John Elway (62) and WR Charleston Hines led the conference in receiving yards (1,093) and TD catches (1).

Spurrier's wide-open offense in Tampa Bay became affectionately known as "Banditball." In 1984 the Bandit offense became the first in pro football history to produce a 4,000 yard passer and run 4,000 yard rushers in the same season. In 1985 QB John Elway, now a member of the Florida coaching staff, became the first QB in pro football history to throw for over 4,000 yards in back-to-back seasons.

SPURRIER'S BLUEPRINT FOR SUCCESS

■ Our goal is to become the best football program in this state. To accomplish this we must graduate the highest percentage of players and win more games than our in-state rivals. We also will have different football-related goals each season which will be established by our seniors. To accomplish these goals we must have a total commitment from everyone involved in our football program. This includes our administrators, our support staff, players, coaches and our tremendous Gator fans, who we believe are the best in the nation.

■ This is the finest academic institution in the state and ranks with the very best state universities in the nation. The athletic facilities in place are outstanding. These are advantages we can offer to our players. We also offer them support and guidance in their college career, academically.

■ We have a lot of smart people here who want these young men to be the best they can be in all these areas.

■ What we expect and demand from our players is that they be solid citizens off the field, be the best students possible, be graduates and to be the best football players they can be. When all this happens then the college experience will be a positive one.

■ It is our job as coaches to teach and develop player skills. What we expect from the players is effort and concentration. When that happens

you build teams that play hard all the time and keep mental errors to a minimum. This is what we will demand of our teams.

■ What do we want in an assistant football coach here at Florida? First, he must be an enthusiastic, first-class individual who gets along well with everyone. Second, he must be a coach who can teach sound, fundamental football. Third, he must treat the players as if they were his own sons and make the game fun for them.

■ Offensively, we try to play according to how the defense is playing and we want to spread the ball. If they have eight people at the line or scrimmage, we think we should throw it. If they have five up front and six dropped back, perhaps we should be running the ball. If they're playing back in the secondary, we want to throw it in front of them and if they're playing tight, we want to throw it over their heads. Our offen-

sive goal is to get the best possible play against that particular defense and to attempt to exploit what they are permitting.

■ Defensively, we want to develop a characteristic of being an aggressive, physical team which wants to take the football with the goal of turning it over to our offense. Obviously, team speed is a high priority. We want to be fundamentally sound, but willing to take calculated, aggressive moves to disrupt offenses. I think the players who are involved in this defensive scheme will have fun playing the game.

■ I think the one reason most players enjoy this offense is that everyone is involved in it. It's not designed to highlight one running back or one wide receiver. We spread it out to include everyone, and we recognize the importance of the offensive linemen in helping it work.

■ Creating a family atmosphere among the coaches and players is very important. Most of the family stuff comes naturally, however, in that we don't work at it. We have team parties and team banquets as well as other things that bring things together. We want an atmosphere where the guys like each other and pull for each other to do well.

■ Our practices are not as hard as some teams have them. We want every player to get his share of playing time. You can prepare a team for a game without risking injuries, and that builds camaraderie. When the offense and defense get out here in practice and try to block each other, it's easy for the offense to get frustrated and vice versa. I make it a point to tell them that I don't want them to get frustrated. I'd try to work it so the players would like each other and not try to kill each other.

■ Teams that believe something good is going to happen for them in the fourth quarter and keep playing hard, find good things do happen.

PEOPLE AGREE

SPURRIER'S A WINNER AND AN INNOVATOR

In 1990 we had the same athletes we've always had. The difference was Coach Spurrier. I can't stress enough how much the whole team came to admire him and was thankful for him. He turned things around for a lot of us.

TE Kirk Kirkpatrick

"There is no question that it was Coach Spurrier that turned this team and this program around. He turned the attitude around. There is no one like him. We have this bond with him that you have to have to win championships.

WR Ernie Mills

Steve was a coach on the field when he played for me in the 1960s. He could make decisions under pressure, check off and turn bad plays into good plays, and when he walked into the huddle the other players were totally confident he would come up with the right move and execute it. He does that now as a coach with the rare ability to instill confidence in everybody that is on the sidelines. In a close game his decisions and adjustments will win for you.

Ray Graves
Head Coach, 1960-69
University of Florida

"Coach Spurrier's offense is imaginative and open, and you

really can't double-team anyone or someone else will turn you. As a receiver playing for Coach Spurrier, you could always have a smile on your face if you do the one thing he asks, which is catch the ball. In his system, a receiver feels like he's a top gun."

Playing for a guy like Steve Spurrier, he knew so much about the defenses we played against and how to attack them. It was almost like a philosophy you kind of pick

up on. If you can have that heading into a pro career, it really helps you. You develop quicker, and may have a better chance to play when you're younger.

You get a chance to understand defenses, defensive fronts, the secondary, rotations. If you can do that on the college level, it becomes second nature.

Steve really knows the ins and outs of the passing game. When you know it as well as he does, it takes a lot of the risk out of throwing the football. Steve taught me more about the mechanics of playing quarterback, the understanding of coverages and the theory behind the passing game, than any coach I had in the NFL.

I have tremendous respect for Coach Spurrier's knowledge of the game and the application of his offense during a game. He's an uptight coach. By that, I mean he plays to attack. Whether he's ahead or behind, he's always looking to exploit what the defense is permitting. Playing in Coach Spurrier's offense prepared me for the pro passing game. He uses the same type of route tree, the same numbering system and

Balance and Diversity is the Goal

Q The offensive philosophy at Florida is as simple. We want to do whatever it takes to win the game. If throwing the ball 50 times, or running it 50 times, gives us the best chance to win, we'll do it.

A We assume you mean the Florida offense is successful because of its balance. Is that right?

Q Yes, that's right.

A Yes, that's right. It's a balanced offense.

Coast Conference championship. It's a rushing two-quarterbacks who combine for over 1,000 yards in a game. It's a quarterback who caught passes in the end zone. It's a team that has three receivers who caught for over 1,000 yards, have three receivers who caught at least 15 passes and two backs who each rushed for at least 600 yards. That is the type of unique balance we are seeking.

I think the one reason most players enjoy this offense is that everyone is involved in it. It's not designed to highlight one running back or one wide receiver. We spread it out to include everyone, and we recognize the importance of the offensive linemen in helping it work.

Coaching is an extremely rewarding experience. The opportunities it presents to work with young men, have an effect on young peoples lives and watch them grow on and off the field is a tremendous opportunity and experience. The opportunity to instill positive values on and off the field to young men is a responsibility that I and each coach on this staff take very seriously. At the University of Florida we work hard to create a fun family atmosphere that lets each player know he will always be a member of our family long after he graduates.

Football has always been a big part of my life, so it was only natural to go into coaching. The opportunity to coach at my alma mater and for Head Coach Steve Spurrier is a dream come true. I am committed to help the University of Florida and its student-athletes be the best they can be.

GATOR DEFENSE

Florida has Earned a Reputation for Having One of the Stingiest Defenses in All of College Football

Florida started the 1990's right where it left off in the 1980's with a top notch, highly ranked defensive squad. Coach Spurrier has put together an excellent staff to carry on this tradition. All of our coaches are good teachers and communicate well with the student-athlete. Our defensive scheme consists of four down linemen (two ends and two tackles), two inside linebackers (M and S), two outside linebackers (Gator back and W) who function as a combination outside linebacker and strong-safety, and three defensive backs (two corners and a free-safety). We are an attacking defense, hard hitting, and hopefully one that causes numerous turnovers. We have the ability to give multiple looks in our defensive front if needed. Our pass coverage emphasizes both zone and man-to-man. We want to be a defense that stuffs the run and then also shuts down the pass game when opponents feel that is the best way to move the football on us.

In recruiting, we look for a young man who has defensive temperament, discipline, good work habits, and a desire to excel. With quality players and quality coaching we will continue to carry on the proud tradition of the Gators' defensive unit.

Florida unquestionably has been the stingiest defense in the SEC in the last ten years. The Gators have led the SEC in total defense for three league's final five, but the conference in this statistic more than twice during the same time frame.

COACHING CAREER PRIOR TO FLORIDA

44

The opportunity to coach football at the level present at the University of Florida is a tremendous personal and professional challenge. I believe that the role of a coach with his players goes deeper than the X's and O's. It is our responsibility to guide and direct young men in their academic and personal lives, as well as challenge them to be the best possible player they can be. It is my role to challenge each player to be successful on and off the playing field.

The opportunity to participate in something you enjoy so much, like coaching college football, has provided me with many blessings in my life. Working for Coach Spurrier and at the University of Florida, in the family atmosphere he generates, creates a unique situation where players and coaches unite for the same common goals, better student-athletes, and better individuals prepared to go out and be successful in society.

PERSONAL DATA

I enjoy coaching because it is the one profession, in my opinion, capable of having the greatest impact on the direction of today's youth. I like working with young people and watching them develop, grow, and mature. I believe in the lessons of life that athletes learn. I also enjoy the exciting game of football and appreciate the challenge of competition.

HERVINA GARCIA

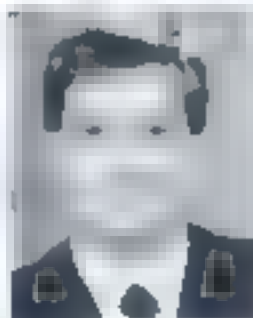

"The greatest thing to me about coaching is the opportunity to help a young person develop and become the type of player and person he wants to become. Football does teach a young person about working hard to achieve his academic and athletic goals and that valuable experience in turn will assist him for the rest of his life."

A further observation was that the number of single-seeded single-gender plants was
 somewhat lower in the low to medium life expectancy than in the low to medium life expectancy
 populations. The 2% of plants with seeds and 2% of plants with seeds in the second year were found
 in the low to medium life expectancy populations.

THE SOUTHEASTERN CONFERENCE

A Tradition of Excellence Carries into the '90s

Commissioner R. H. Krutner

The Southeastern Conference (SEC) is a member of the National Collegiate Athletic Association (NCAA) and is one of the largest and most competitive conferences in the United States. The SEC is composed of 14 member schools, which are divided into two divisions: the Eastern Division and the Western Division. The SEC is known for its high level of competition and its tradition of excellence in college sports. The SEC is also known for its strong academic standards and its commitment to the development of its student-athletes. The diagram illustrates the experimental setup. A subject is seated at a table, viewing a video screen. A camera is positioned above the screen to capture the subject's response. A light source is located to the left of the screen. A scale bar is provided below the screen. The diagram is labeled with 'I1' and 'I2'.

Neal Anderson

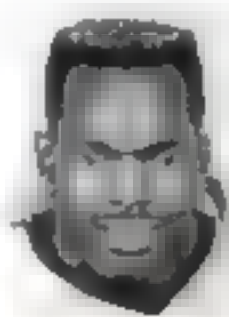

Richmond's Neal Anderson (1975), Lorenzo Hampton (1976), James Jones (1977), Emmitt Smith (1980), Larry Smith (1981), and John E. Williams (1982) have been first-round selections in the NFL Draft. When Anderson and Williams were chosen in the opening round of the 1986 NFL Draft, it marked the first time since 1973 that two quarterbacks from the same college team were selected in the first round of the draft.

Tim Lincecumworth, one of several Florida receivers who have gone on to have fine pro careers.

Ricky Nattier, whose 17.8 yards per reception ranks as the best in school history. Not a minimum of 100 career catches, just Carlos Almaraz as the all-time receptions in Florida history for the principle over 2,000 yards in career receptions.

The 1984 Caters squad posted an overall 9-2-2 record and was ranked third in the final AP ranking. The Sporting News and the New York Times declared the squad national champions. Florida's 5-10-1 mark in SEC play marked the first time in school history that a Gator squad finished with the best record in SEC play.

The 1985-86 squad posted a 9-1-1 record and was ranked fifth in the final AP poll. Its 5-1-0 mark in SEC play tied for first in the league standings. After its 54-10 win at Auburn, it became the first squad in school history to be ranked number one in the nation in a wire service poll.

Schematic diagram of the experimental setup for the study of the effect of the initial concentration of the monomer on the polymerization of α -methylstyrene initiated by SnCl_4 in CH_2Cl_2 at -78°C . The reaction mixture was stirred in a three-necked round-bottomed flask equipped with a thermometer, a magnetic stirrer, and a nitrogen inlet. The flask was cooled in a dry ice/acetone bath. The reaction mixture was analyzed by ^1H NMR spectroscopy.

Right: CH known Bell was told by major college coaches that he didn't have the skills to compete at that level. He felt they were wrong and wanted a chance to prove it. He decided to walk-in at Florida. A year later in 1982 as a walk-in scholarship player he became a starter and was named SEC Player of the Year. By the time he completed his career in 1987, he was the SEC's all-time leading rusher with over 7500 yards. He is one of the former UF walk-ons who have gone on to play in the NFL.

The Gator walk-on program has indeed proved successful and beneficial to both the individual student-athletes and to the University of Florida football program. The following statistics show the results of the program:

- Nine former Gator walk-ons have gone on to play in the NFL: DB Hugood Clarker, DB Allen, WR Willie Davis, WR Vaughn, B. James Hartsell, WR Lee Smith, WR John Williams, PK David Povey, QB Kerwin Bell, DB Louis Oliver.
- Former walk-on Louis Oliver was selected in the first round of the 1989 NFL Draft by Miami.
- Former walk-on John Smith went on to earn All-Pro honors in 1987.
- Former walk-on Kerwin Bell was an NFL Player of the Week in 1984 and completed his career in 1987 as the greatest slot receiver in NFL history.
- Former walk-on DB Louis Oliver earned first-team All-America honors in 1987 and 1988.
- When Bobby Raymond completed his career in 1984, the former walk-on's name appeared in the NCAA place-kicking record book as the greatest place-kicker of all time.
- Walk-on WR Gary Rolle was named Academic All-America and winner of the National Football Foundation Scholar Athlete Award in 1984.
- Twenty Gator walk-ons have earned Academic All-SEC honors.
- The walk-on program has been a national success story for more than 20 years.
- Former walk-on Louis Oliver was one of three finalists for the Thorpe Defensive Back of the Year Award in 1988.
- The 1985 Gator team that finished 9-1-1 and fifth in the final national pollings had 18 prominent players that originally joined the team as walk-ons.
- Six former walk-ons were in the starting lineup when UF began the 1986 season. At least another eight former walk-ons were in the lineup.
- Twenty-one former walk-ons were named starting backups in 1986.
- Five former Gator walk-ons — WR Lee McGriff, DE Preston Kendrick, PK David Povey, QB Kerwin Bell, and DB Louis Oliver — have gone on to earn first-team All-SEC honors.

The above facts clearly point out that the Florida walk-on program has become an integral and valued aspect of the Gator football team. It has provided the opportunity for countless young men to show that the evaluation and recruiting processes make mistakes. It has provided many opportunities for young men to live their dreams of playing major college football. It has provided countless opportunities to dozens of young men who were told that they were too small or too slow to play major college football. It has provided countless opportunities for these young men to mature physically while improving their football skills so that one day they could indeed play major college football and fulfill their dreams.

DB Louis Oliver had scholarship offers at some small colleges, but he had a dream of playing major college football. He came to Florida as a walk-on in 1984, earned a scholarship in 1985, became a starter in 1986, and then was named a first-team All-American in 1987 and 1988. He was one of three finalists for the Thorpe Defensive Back of the Year Award in 1988 and was a first-round selection in the 1989 NFL Draft.

LB Pat Moorhead had several scholarship offers, but he had a dream of playing in the SEC. He joined the UF program as a walk-on in August of 1986. Three months later he had earned a starting position, the first true freshman to start a game for the Gator defense since 1981. He was awarded a scholarship in January of 1987. He led the nationally ranked Gator defense in tackles in 1988 and 1989.

FLORIDA AND THE NFL

When 1st Round pick Richardson was selected in the first round of the 1961 NFL draft in Pittsburgh, it marked the ninth consecutive year that at least one UF player was chosen in the first round, the first time since the NFL Draft began in 1936 that any school has had at least one first-round selection for nine consecutive years. Richardson was the first UF player to be chosen in the first round since 1961, the most for any school in the nation over the past nine years.

FLORIDA NOTES ON THE FIRST ROUND OF THE NFL DRAFT

- Florida has had at least one player selected in the first-round of the NFL Draft in each of the last nine years (1983-91) the only school in the nation to achieve that distinction over that period of time.
- Florida's current streak of nine consecutive years in which it has had at least one player selected in first-round of the draft is the longest consecutive streak for any school in the nation since the NFL Draft began in 1936.
- Florida has had 11 of its players selected in the first-round of the NFL Draft since 1983, the top total in the nation for a school over the course of the last nine drafts.
- Florida has also led the nation with the most first-round selections in ten consecutive years (12) the most over the last seven drafts (11) and the most over the course of the past three years (5).

The University of Florida is the only school in the nation to ever be represented in the first round of the regular NFL Draft for nine consecutive years since the NFL began its draft in 1936. The Gators have achieved that distinction with 13 first-round selections over the last nine NFL drafts from 1983-91.

- Florida was the only school in the nation to have three players selected in the first-round of the 1983 draft.
- Florida (1989), Pitt (1987), Southern Cal (1981), Wisconsin (1985), Iowa (1986), and Miami (1987) were the only schools to have had three players selected in the first-round of a draft during the decade of the 1980's.
- Allen Neal Anderson (Chicago) and John L. Williams (Seattle) were selected in the opening round of the 1986 NFL Draft - represented the only time during the decade of the 1980's, and the first time since 1971 that two runningbacks from the same collegiate team were both selected in the first-round of the draft.
- Allen Huey Richardson was selected in the first-round of the 1991 draft by Pittsburgh - brought to 22 the number of Gator players selected in the opening round of the NFL Draft. Here is a breakdown of those selections by position: Runningbacks (8), Quarterbacks (2), Wide Receivers (2), Offensive Linemen (2), Defensive Linemen (3), Linebackers (3), Defensive Backs (2).

Fluorescence images with short wave and short wave/long wave excitation are shown in Figure 1. The fluorescence images show that the fluorescence of the polymer is significantly enhanced when it is irradiated with short wave/long wave excitation.

**FLORIDA'S MOST PRESTIGIOUS
INSTITUTION OF HIGHER EDUCATION**

*Florida's First University Is Fast Becoming Among
the Nation's Elite Institutions of Higher Education*

4. *Figure 1. The relationship between the number of species and the number of individuals in a community.*

In 1985, the University of Florida was admitted to the Association of American Universities (AAU), the most prestigious higher education organization in the nation. Comprised of the top 20 public and private universities in North America, concerned in graduate and professional teaching, and research, the AAU invites only the best in higher education into its membership. With its admittance, UF joined its sister institutions of the South - Duke, North Carolina, Rice, Texas, Tulane, Virginia and Vanderbilt - as the outstanding universities in the region. For this past academic year (1986-87) the University of Florida was the only school in the 58-member Association of American Universities to have its football team ranked in the top fifteen in the final AP poll and its baseball team advance to the College World Series.

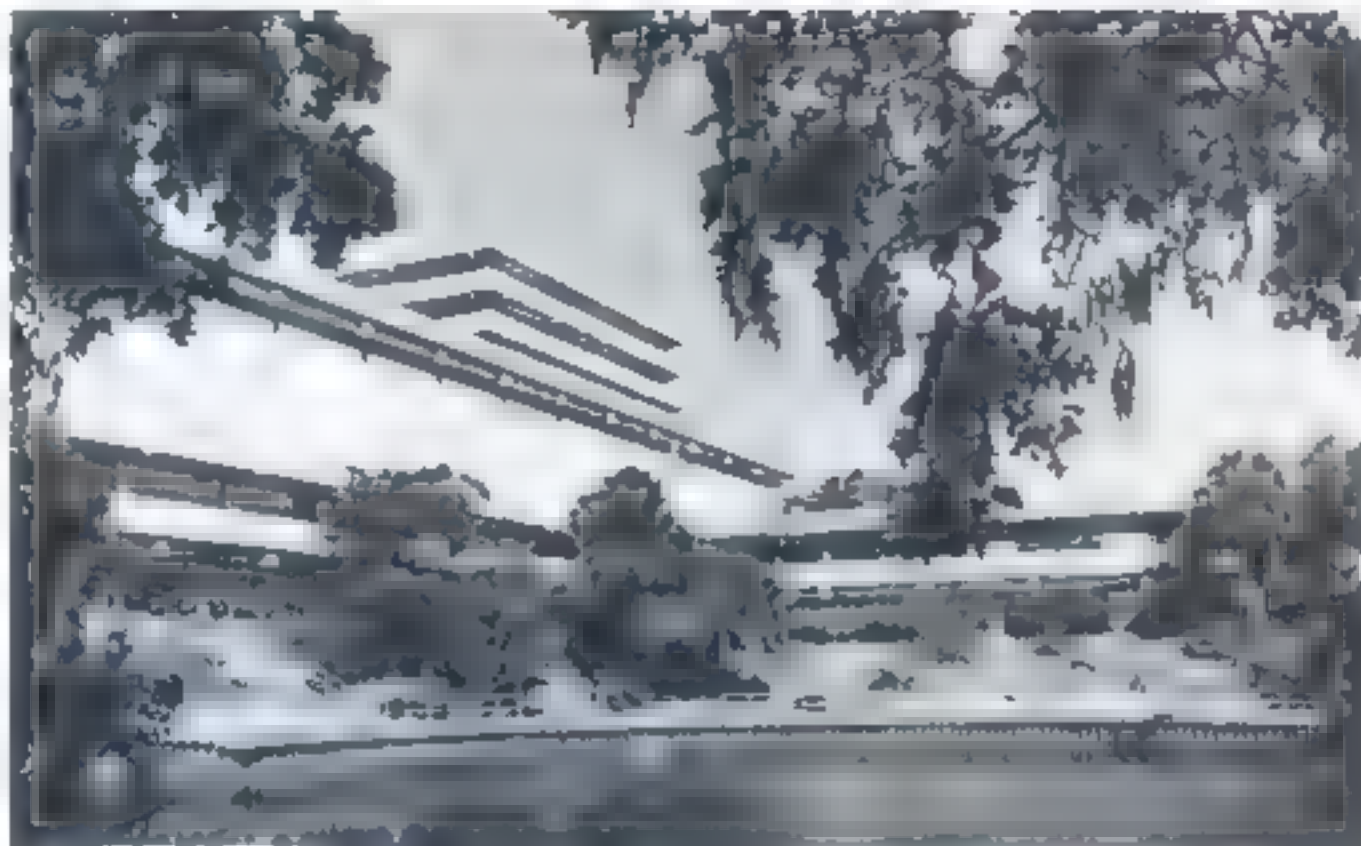

ASSOCIATION OF AMERICAN UNIVERSITIES MEMBERS

The list of the most prominent universities in higher education is not limited to the list of prominent graduate and professional schools and research

institutions.

The University of Florida is the largest oldest and most prestigious university in the sunshine state in among the nation's 10 largest highest endowment universities.

The University of Florida is also ranked among the nation's 51 leading research universities as categorized by the Carnegie Commission on Higher Education.

SETTING AND ENVIRONMENT

The University of Florida, with more than 800 buildings, is located on 2,000 acres in Gainesville, a city of more than 85,000. Situated in North Central Florida mid-way between the Atlantic Ocean and the Gulf of Mexico, the city is known as an educational, agricultural, and small industrial center.

In addition to its moderate climate and other amenities which provide a superb quality of life, Gainesville offers other advantages to students of the university. Swimming and boating accommodations are available at nearby springs and rivers and lakes in the vicinity abound in fresh water fish.

HEALTH CARE

A commitment to total care is one of the hallmarks of the University of Florida's approach with its student athletes. The very best equipment, staffing and facilities are available to ensure that every student athlete is cared for in the best possible way.

The University of Florida's athletic training staff is one of the best in the country. It includes a variety of professionals, including physical therapists, strength and conditioning coaches, and sports medicine physicians. The staff is dedicated to providing the best possible care for every student athlete.

Assistant Athletic Director for Sports Health Chris Patrick, Director of Sports Equipment Bud Fernandez, Coordinator of Athletic Training Lisa Koehler, Massage Therapist Benny Watkins, Strength and Conditioning Coach Doug Kauffman, Physical Therapist Marty Huegel, plus a highly-regarded athletic training staff are a part of the health care team. The staff is dedicated to providing the best possible care for every student athlete.

Working together is the key," says Assistant Athletic Director for Sports Health Chris Patrick. "We are dedicated to the National Athletic Trainers Association's commitment to the highest level of care for our athletes."

Since 1989, "Everything from the equipment issued to our players to the medical care they receive is provided by the University of Florida. We have to provide the best care possible. Our goal has always been to provide care for our people as opposed to taking care of them. Our goal is to provide the best care possible."

daily four-minute program, keeps fans updated on the Gator football program Monday through Friday during the 1992 season.

In charge of hosting all shows on the network and game play-by-play is the "Voice of the Gators" Mick Hubert. Hubert is in his third season behind the mic for the Gator Network after serving as sports director WHIO-TV and Radio in Dayton, Ohio from 1974-87. He served as the radio voice for the Dayton Flyers for both football and basketball. Hubert, a 1968 St. Anne High graduate, graduated from Miami State University in 1971.

Former Gator coach and all-Southeast wide receiver 1972-74 Lee McCurt will handle the color duties for a fifth year. Al Griffin, a Tampa native and U.S. Football Hall of Fame member, is currently an

ESPN analyst who moderates the Gator Radio Network, will cover the sidelines. He also serves as color analyst for basketball and works with Hubert on Gator baseball. Bark hosts the "Steve Spurrier Post-Game Show" from the locker room. He is a native of Southern, Ohio, and a 1982 graduate of Miami State.

Air station Radio Network programming is contributed by Sumner Sabeline. Serving out of Orlando, Steve Woodford is the producer of an Gator program on

WFLA AM and FM (101 and 102.7) in Jacksonville is the flagship station while the American Network Group out of Nashville, TN is the rights holder. Tom Stevens is the executive producer of the Gator Network.

All Gator football game broadcasts will be available to fans outside the state of Florida via an RDS telephone service and through selected radio markets.

"Florida Football with Steve Spurrier" a 30-minute show on Sundays that highlights Saturday's game along with special features, returns for a second year across the state of Florida.

The show is hosted by Mick Hubert and features Coach Spurrier. An over-the-air network along with SportsChannel both carry the program and make it the most watched highlight show in Florida according to Wharton Ratings, 1990s. A complete station listing will be announced in August. The show is produced by SportsChannel and the U.S. Football Athletic Association at the studios of WFTL-TV in Gainesville.

"Florida Replay" complete game coverage of all eleven 11 games will be shown Saturday nights on a delayed basis to more than four million homes in Florida by SportsChannel and the GatorVision TV net.

The first showing of "Florida Replay" is at 11:10 PM Saturday nights and in addition to being shown statewide is aired in many of the nation's top markets by SportsChannel. As SportsChannel and GatorVision Network will be announced.

Calling the action for "Florida Replay" is Davey Steele, head coach of the Gators" and currently calling the radio at 11:10 PM the NBA's Orlando Magic. Former Gator and NFL standout Jim Yarbrough handles the color commentary while Steve Ratok, of the Gator Radio Network reports from the field. Larry Votaw of WKCF AM 610 is in for Steele when he is in the NBA courts. It is to Keith Allen.

THIS IS FLORIDA FOOTBALL

We encourage young student-athletes to join us at the University of Florida where we take great pride in the academic and athletic success of our students. Student-athletes at the University of Florida enjoy the benefits of superb facilities, but more importantly they join programs headed by exceptional coaches. Head football coach Steve Spurrier, like all of us at Florida, has committed himself to develop a first-class football program that reflects the quality and pride of playery, and that inspires the respect, admiration, and pride of faculty, students, alumni and friends of the university.

■ DR. JOHN LOMBARDI, President

The University of Florida's commitment to excellence in academics, athletics, facilities, health care, student life, academic support and fan support are all a part of why it is great to be a Florida Gator. From the day a student-athlete enrolls at Florida to the day they walk across the O'Connell Center stage to receive their degree, our complete staff is available to help them achieve the winning edge. They benefit from quality faculty and coaches and the family atmosphere present on campus and in the community and state. We believe that the Florida experience is truly an experience that prepares young men and women to meet the challenges now as student-athletes and later in life in their chosen professions.

■ BILL ARNSPARGER, Director of Athletics

Gator football is a positive experience for our players. Fun to play in a family atmosphere. The excitement of playing at sold-out Florida Field in front of 84,000 fans, having your games on national TV over 75 percent of the time, competing at the highest level in the nation's best league, the SEC. That is Florida football. When you combine it with a degree from the University of Florida, the highest ranked state university in the south, you achieve the ultimate college experience.

■ CARL FRANKS, Recruiting Coordinator

including the University of Florida. This fact solidly demonstrates that the University of Florida football program is indeed one of the few in the nation that is ranked at the very highest level for both academic and athletic success.

Now let's look at the chart that ranks the nation's finest overall combined athletic programs. The University of Florida has ranked among the ten most successful combined men's and women's athletic programs in the country in

1990 in USA Today's most recent

rankings (July of 1990). It is ranked as the 11th most successful combined program in the nation for the 1989-90 athletic year. Schools that also belong to the AAU are in bold type. Once again, it shows that the University of Florida is indeed a part of a very small group of schools that belongs to the nation's top educational organization as well as boasting an overall athletic program that ranks among the ten best in the

country.

Some very important elements are that when the University of Florida takes on "The Box of Both Worlds" it indeed is one of the very few schools in the nation that backs up such a statement with unparalleled academic

achievement.

A RARE TRIPLE PLAY The University of Florida, the University of Texas and the University of Southern Cal are the only three schools in the nation that saw their football team ranked in the final AP Top Twenty for 1990, had their overall athletic programs ranked among the ten most successful in the nation in a 1990 ranking by USA Today, and are members of the Association of American Universities — the most prestigious organization of higher education in North America.

FIRST CLASS FACILITIES

Modern and Convenient Facilities
Rate Among the Very Finest in the Nation

"The quality and convenience of the facilities is one of the reasons why I came to UF. There aren't too many schools that can compare to Florida in this regard. You always had a sense that people were taking care of the exceptional facilities and looking for ways to make them even better. I really don't think that there is another school that can top Florida."

■ JIMMYE HAYES
Head Coach

"I was fortunate to be recruited on a national basis and I can honestly say that Florida's facilities are second to none. Everything, and I mean everything, is first-class. What makes it all the better is the fact that you have everything here; the dining room, dorm room, training facilities, workout room, and locker room. The convenience factor combined with the quality of everything makes the facilities exceptional."

■ ITTIE DAY WILLIAMS
Assistant Coach

"The quality of the facilities are superb. Just as impressive was the convenience of everything. You fully realize that everything was built and situated with the student-athlete in mind."

■ JEB CLIFFORD CHARLTON
Assistant Coach

"All of the facilities are first-class. I really appreciated the fact that everything was so centrally located. I didn't have to walk far to get anywhere. Everyone appreciated the fact that the convenience factor for the athlete was kept in mind when all the new facilities were built."

■ JIMMYE HAYES
Head Coach

Beautiful New Hill Country Stadium at Florida Field will be expanded this fall to over 64,000 when the north-end of the stadium is completed. The expansion will give Florida one of the eight largest on-campus stadiums in the nation. Florida's ranked tenth in average home attendance in 1998 with over 42,000 fans per home game.

But the fact that it's the only team in the country to have a "Gatorade" jersey is a testament to the team's success.

The Gators have played in front of home crowds at Florida Field of 70,000-plus in each of the last 14 games. During that same period of time the other football playing schools in the state have played before home crowds of 70,000-plus just six combined times.

THE SOUTHEASTERN CONFERENCE

**Success, Achievement, Competitiveness, Intensity,
Support, Attention, and Glittering Tradition
Make It America's Premier Conference**

The SEC is the most competitive conference in the nation. The intensity helps bring out the best in everyone. Playing in this league is also excellent preparation for playing in the NFL. It was good to play at Florida and play against tough teams week in and week out just as you will in the pros.

It's simply the most competitive conference in the nation. If you want to play against the best players and the best teams week after week in a highly intense and emotional environment, then the SEC is the place to be.

TRADITION AND HERITAGE

*Some of College Football's All-Time Great Players
Combine with Other Impressive Individual and Team
Achievements to Give the Gator Program A Proud Past*

Head Coach Steve Spurrier epitomizes Florida's football heritage and tradition. The 1966 Heisman Trophy winner is among 26 former players selected in the first round on the NFL Draft and one of over 100 players to earn All-America honors through the years.

Florida's football program has a rich history of success, with numerous national championships and individual accolades. The team's legacy is built on the foundation of exceptional players and coaches who have dedicated themselves to excellence on the field. From the early days of the program to the present, Florida has consistently produced some of the best talent in college football. The team's success is a testament to the hard work and dedication of everyone involved, from the players to the coaching staff and the fans who support the program. The tradition of excellence continues to this day, as Florida remains one of the premier programs in the sport.

■ Florida has won a record 14 first-round selections in the NFL Draft over the last several years. Florida has had at least one first-round selection in each of the last nine years, an achievement that no school in the nation can match. Florida is the only school in the nation to ever have at least one selection in the opening round of the NFL Draft for nine consecutive years since the NFL started its draft in 1936.

RECOGNITION

A High National Media Profile and the Prestige of the Southeastern Conference Place Gator Players in Prime Position for National Recognition and Awards

Florida's national media profile is high, and the Southeastern Conference's prestige is well known. This combination places Gator players in a prime position for national recognition and awards. The Gators have a long history of producing players who have been recognized at the national level. This year, the Gators have several players who are being considered for the 1990 SEC Player of the Year award. The Gators' success in the SEC and nationally is a testament to the quality of their players and the coaching staff.

GAMEDAY

The Atmosphere at Florida Field on Gameday Ranks With the Most Vibrant and Electrifying in All of College Football

As the sun sets over the stadium, the atmosphere is electric. The crowd is a sea of orange and blue, and the players are in their element. The game is in its final minutes, and the outcome is still uncertain. The crowd is on its feet, cheering and waving. The players are running hard, and the game is a blur of motion. The atmosphere is simply incredible.

The atmosphere at Florida Field is truly something to behold. It's a place where the passion of the fans is palpable, and the players are playing for the love of the game. The atmosphere is what makes college football so special, and it's what makes Florida Field a must-visit destination for fans.

FLORIDA GAME DAY

An Unforgettable Memory

36

I'll always have so many fond memories of my years at Florida. Playing at Florida Field, however, will always remain something very special. Players from other teams always commented that playing here was the toughest place to visit, and that's because of the Gator fans. They are always there no matter what. At other stadiums the intensity of the fans was off and on, loud one moment and then at other times you didn't really hear them. That's never the case at Florida Field. The fans are always supportive. They really are special and I'll never forget the feeling of running out of the tunnel at Florida Field. It gives me goose-bumps just thinking about it. I really had the time of my life out there.

■ T. IRVING (JERK KISS '91)

In 1981 the National Cheerleaders Association selected the Gator faithful as the most participative and supportive home crowd in collegiate athletics in the first year of national competition for that award. Since 1981 the Gators have posted a sparkling 49-9-2 record at Florida Field, a mark that the fans have played a large part in helping to achieve.

Unmatched NFL First-Round Draft Success

- Florida has had at least one player selected in the first round of the NFL Draft in each of the last nine years (1983-91), the only school in the nation to achieve that distinction.
- Florida's current streak of nine consecutive years with at least one first-round selection in the NFL Draft is the longest continuous stretch of first-round choices for any school in the nation since the NFL Draft began in 1936.
- Florida has had 13 players chosen in the first round of the NFL Draft in the last nine years (1983-91), a total that ranks first in the nation.
- Florida had three first-round draft selections in the 1989 NFL Draft, the only school in the nation to achieve that distinction.
- With the selection of defensive end Huey Richardson in the first round of the 1991 NFL Draft, Florida has now had 22 first-round choices in school history. Here is the breakdown of that group by positions: Runningbacks (8), Quarterbacks (2), Wide Receivers (2), Offensive Linemen (2), Defensive Linemen (3), Linebackers (3), Defensive Backs (2).
